Touring caravan security requirements:

- “ Touring caravans of any value require a **hitchlock AND wheel clamp or axle wheel lock** to be fitted whenever detached from the tow vehicle.
- “ An **approved tracking device** is required for single and twin axle caravans where the total insured value is £35,000 or more.

Tracking devices receive a 15% premium discount each year!

For a list of our approved devices visit www.caravanguard.co.uk/tracking

For a list of approved axle wheel lock devices please visit

www.caravanguard.co.uk/caravan-axle-wheel-locks.php

Important note: Dependent on the storage location and value of the caravan, we may advise that we need extra security.
